

ARTISTS & NEW TECHNOLOGY

The Australia Council invites applications from artists to participate in projects at the CSIRO Division of Applied Physics, Sydney, and in other scientific institutions. The projects are intended to enable artists to experiment with the application of new technology to the arts.

Living allowance of up to \$8,000 each for four artists will be paid to allow artists to work full-time for up to 3 months beginning in May 1985. Applicants wishing to propose alternative venues to the CSIRO Division of Applied Physics should submit proposals developed in consultation with the institution concerned. It is essential that applicants have some scientific literacy.

Application forms and information about CSIRO's facilities are available from:

Inter-Arts Officer,
Special Services Australia Council
PO Box 302, NORTH SYDNEY NSW 2060
Tel: (02) 923 3347

The closing date for applications is
31 December 1984.

ARTISTS, CREATIVE FILM-MAKERS AND FILM TECHNICIANS

**in residence at CSIRO Division of Applied
Physics, Sydney**

The Australia Council and the Australian Film Commission are providing funds for up to 3 artists, creative film-makers or film technicians in residence at the CSIRO Division of Applied Physics.

The project is intended to enable artists, creative film-makers and film technicians to experiment with the application of new technology to the arts. The CSIRO Division of Applied Physics has a staff of almost 400 and does research in applied physics related to industry and the community. The laboratories have facilities in modern technologies, for example, computer-controlled machining, holography, laser technology, anechoic chambers, acoustics, ultrasonic technology, electric discharge machining, computer graphics, electroplating, photo engraving, and laser machining. The Division also has excellent mechanical and optical workshops and a photographic laboratory. It is anticipated that short-listed applicants would visit the laboratories and formulate proposals that are compatible with the availability of CSIRO staff, equipment, and materials.

Time: up to three months full-time residency in the 12 month period beginning September 1983

Place: CSIRO Division of Applied Physics, West Lindfield, Sydney

Funding: A living allowance of up to \$8,000 per artist

Application procedure: Application forms and information about CSIRO's facilities are available from:

(for artists)
